### **DCPSC Launches New Online Portal for 2025 Summer Internship Applications**

*Internship applications are open until April 21, 2025.*

**Washington, D.C.** - The Public Service Commission of the District of Columbia (Commission) has opened applications for its [2025 summer internship program](#), offering college students hands-on experience in energy regulation and environmental policy. This year, the Commission has introduced a new online application portal, streamlining the process for students to easily apply and track their submissions. The deadline to apply is April 21, 2025.

The internship program provides opportunities for students pursuing careers in law, engineering, economics, environmental studies, communications, human resources, and information technology. Interns will work alongside industry professionals, contribute to key projects, and develop valuable skills in regulatory affairs and public service.

“With our new online portal, the Commission is opening doors to a hands-on experience in a real-world environment and empowering students to actively engage with the future of energy policy and regulation,” said Commission Chairman Emile Thompson. “We encourage all interested students to apply and take advantage of this exciting opportunity.”

#### **Key details:**

- **Application deadline:** April 21, 2025
- **Online portal:** [dcpssc.org/internships](https://dcpssc.org/internships)
- **Program focus areas:** law, engineering, economics, environmental studies, communications, human resources, information technology
