

**PEPCO NOTICE OF COMMUNITY ADVISORY GROUP ASSEMBLY
WATERFRONT SUBSTATION – BUZZARD POINT**

In order to inform and educate the community regarding the construction and operation of the future Waterfront Substation on Buzzard Point in the Southwest section of the District of Columbia, Potomac Electric Power Company (Pepco) is convening a Community Advisory Group (CAG).

The membership of the community advisory group includes the District of Columbia Public Service Commission (PSC) Staff, Pepco, Office of the People's Counsel of the District of Columbia, District of Columbia Department of Energy, and interested members of the public, including ANC6D and DCCA. The CAG, chaired by the PSC Staff, organizes public meetings and disseminates information to the community regarding the construction and operation of the substation and associated four transmission lines.

This Notice seeks community involvement to disseminate the latest project developments throughout the different construction stages of the Waterfront Substation. Pepco will convene an initial meeting to assemble the Waterfront Substation CAG at the following location on the specified date and time:
