PUBLIC SERVICE COMMISSION OF THE DISTRICT OF COLUMBIA

PUBLIC NOTICE

FORMAL CASE NO. 1156, APPLICATION OF POTOMAC ELECTRIC POWER COMPANY FOR AUTHORITY TO IMPLEMENT A MULTIYEAR RATE PLAN FOR ELECTRIC DISTRIBUTION SERVICE,

The Public Service Commission of the District of Columbia ("Commission") hereby gives notice, pursuant to D.C. Code Sections 34-901 and 34-909, that on May 30, 2019, Potomac Electric Power Company ("Pepco") filed an Application requesting authority to increase existing distribution rates by \$162 million through the implementation of a Multiyear Rate Plan ("MRP") for the years 2020 through 2022. Pepco requests authority to earn an 7.81% rate of return, including a return on common equity of 10.30%. Pepco represents that its application would translate to an increase in distribution rates of approximately \$8.57 in 2020, \$3.69 in 2021, and \$3.19 in 2022 for a typical residential customer who uses 692 kWh per month.

Should the Commission reject Pepco's MRP, Pepco's Application request authority to increase existing distribution rates by \$88.6 million using the test period ending June 30, 2019 that includes six months of actual data and six months of forecasted data, which would translate to an increase in distribution rates of approximately \$9.55 for a typical residential customer who uses 692 kWh per month.

The proposed changes in distribution rates for the MRP if the Commission were to fully grant Pepco's MRP proposal are estimated to be as follows:
