

FORMAL CASE NO. 1144, IN THE MATTER OF THE POTOMAC ELECTRIC POWER COMPANY'S NOTICE TO CONSTRUCT TWO 230kV UNDERGROUND CIRCUITS FROM THE TAKOMA SUBSTATION TO THE REBUILT HARVARD SUBSTATION, AND FROM THE REBUILT HARVARD SUBSTATION TO THE REBUILT CHAMPLAIN SUBSTATION (CAPITAL GRID PROJECT)

**PUBLIC NOTICE OF STATUS CONFERENCE
CAPITAL GRID PROJECT, PHASE II Mt. VERNON SUBSTATION**

The Public Service Commission of the District of Columbia (Commission) will hold a Telephonic Status Conference on Phase II (the proposed Mt. Vernon Substation) of the Potomac Electric Power Company's ("Pepco") Notice of Construction ("NOC") or Capital Grid Project on **October 25, 2019, at 2 pm**. By Order No. 20203, the Commission approved Phase I of the Capital Grid Project, which excluded Pepco's construction of the proposed Mt. Vernon Substation. The Commission explained that due to the complexities of the issues associated with the proposed Mt. Vernon Substation, it would hold a status conference to consider the process for reviewing Phase II of Pepco's Capital Grid application.

Pepco recently advised the Commission that it does not plan to supplement its June 29, 2018, Notice of Construction with any updated information related to the proposed Mt. Vernon Substation.¹ Given this information, the Commission will convene a Telephonic Status Conference to discuss what, if any, further process is necessary to facilitate the Commission's adjudication of Pepco's Capital Grid application.

Interested individuals or entities who would like to participate in the Telephonic Status Conference should call 1-650-479-3208. The meeting access code number is 735 002 107. Any inquiries regarding the Telephonic Status Conference call should be directed to Sanford M. Speight at 202-626-9187 or sspeight@psc.dc.gov.
