

PUBLIC SERVICE COMMISSION OF THE DISTRICT OF COLUMBIA

PUBLIC NOTICE

(PUBLIC COMMENT PERIOD EXTENDED UNTIL OCTOBER 13, 2021)

RM29-2021-01, IN THE MATTER OF 15 DCMR CHAPTER 29 – RENEWABLE ENERGY PORTFOLIO STANDARD,

1. By this Public Notice, the Public Service Commission of the District of Columbia (Commission) informs interested persons of an extension of time to file comments in response to the August 13, 2021, Notice of Proposed Rulemaking (NOPR) published in this proceeding in the *D.C. Register*.¹ This Notice supersedes the August 13, 2021, NOPR, and comments to the NOPR are now due by October 13, 2021.

2. The purpose of the published NOPR is to increase the accuracy of system output and efficiency in the RPS program by generally requiring all renewable generating facilities, including behind-the-meter generators, to account for energy output through the use of a revenue grade production meter or inverter-based production measurement equipment and requiring documentation of site maps or construction drawings and additional attestations for both new and amended applications, among other things. On September 13, 2021, a Motion for Enlargement of Time to file comments was filed.² Through this Public Notice, the Commission hereby extends the comment period from September 13, 2021, to October 13, 2021.

3. All persons interested in commenting on the subject matter of this proposed rulemaking action may submit written comments addressed to Brinda Westbrook-Sedgwick, Commission Secretary, Public Service Commission of the District of Columbia, 1325 G Street, N.W., Suite 800, Washington, D.C. 20005 and sent electronically on the Commission's website at https://edocket.dcpsc.org/public/public_comments. Copies of the proposed rules may be obtained by visiting the Commission's website at www.dcpsc.org or at cost, by contacting the Commission Secretary at the address provided above. Persons with questions concerning the Second NOPR should call (202) 626-5150 or psc-commissionsecretary@dc.gov.
