PERFORM INDEPENDENT MANHOLE INSPECTIONS AND PROVIDE TECHNICAL AUDITING AND CONSULTING SERVICES ON PEPCO'S MANHOLE INSPECTION AND UNDERGROUND ELECTRICAL DISTRIBUTION SYSTEM REMEDIATION PROGRAM.

Addendum No. 1

Issued: September 14, 2023

A. Questions and Answers

Question 1

Is there a current project in place that this RFP is replacing, or is this an entirely new project?

Answer

There is not a contractor currently performing these services, the previous contract expired in 2019. The requirements in the RFP are not new, they are on- going.

Question 2

Have there been any previous projects similar to this RFP, and if so, is there any information you can provide?

Answer 2

The previous contract expired in 2019. The Commission does not have any additional information to provide.

Question 3

Is there an engineer's estimate for the project/ RFP?

Answer 3

The Commission does not have an engineer's estimate for this project.

Question 4

Would the use of AI technology to assist in the prioritization and selection of assets to be inspected be considered?

Answer 4

The Commission will consider the use of any technology proposed and described in the Offerors Work Plan and Technical Approach.
