

RFP No. PSC-23-09
Addendum No. 3
Issued: April 12, 2023

A. PURPOSE:

Addendum No. 2 identified a point of contact at Pepco for Offerors who wish to obtain information, technical assistance, and other necessary cooperation from Pepco during proposal development. The purpose of this Addendum No. 3 is to address additional concerns the Commission has received about timeliness and impartiality in receiving information, technical assistance, and other necessary cooperation from Pepco and to clarify the requirements for proposal submission.

B. RESPONSE:

This is a competitive process. As such, it would not be appropriate for the Commission to participate in any communications between a potential Offeror and Pepco. Offerors are not expected to engage in detailed discussions with Pepco on all aspects of its proposal prior to proposal submission. However, Offerors are expected to exercise due diligence in obtaining information readily available to develop its proposal; fully describe assumptions made in developing the proposal; and list outstanding requirements to be met if its proposal is chosen for implementation. If needed, the Commission may consider a process for facilitating communication during later stages of the evaluation process.

RFP No. PSC-23-09 is modified as follows:

Section B.1.1.2 Communications

Delete: "...and management of cybersecurity risks associated with the proposed alternatives."

Section D.4.6 Risk Management Plan

Delete:

"The risk management plan will identify, assess, monitor, and mitigate technical uncertainties as well as schedule, budgetary, and environmental risks associated with all aspects of the project."

Replace with:

"The risk management plan will identify, assess, monitor, and mitigate technical uncertainties as well as schedule, budgetary, environmental, and **cybersecurity risks**

associated with all aspects of the project.”

Section D.4 EVALUATION PROCESS

Delete:

“In Phase 2, Offerors will submit Budget Proposals and provide Oral Presentations to the Evaluation Committee.”

Replace with:

“In Phase 2, Offerors will provide Oral Presentations to the Evaluation Committee, submit Budget Proposals, and any additional technical information requested by the Commission.”

Section D.4.2.2 Physical Description and Technical Specifications (20 points)

Add:

“(f) Fully describe assumptions made in developing the proposal, and list the nature of information, technical assistance, and other necessary cooperation from Pepco for implementation of the project.”

D.4.2.2 (c)

Delete:

“An explanation of how the project will seek to maximize solar hosting capacity, including a description of the customer’s role, if any, in achieving that goal and if their solution will interact with the Low Voltage Alternate Current (LVAC) network.”

Replace with:

“An explanation of how the project will seek to maximize solar hosting capacity, including a description of the customer’s role, if any, in achieving that goal.”

Section D.4.7 Financial Proposal - Phase 2

Add:

(c) Additional Technical Information

The Commission may request clarifying information or additional documentation in support of an Offeror’s proposal.

C. QUESTIONS:

Offerors are reminded to adhere to Section F.2 Questions for submission of questions and concerns.

-End of Addendum-
