To be considered, Offerors must be certified by the DC Department of Small and Local Business Development.**

SECTION B: SCOPE OF WORK

B.1 Background

To implement provisions of the Retail Electric Competition and Consumer Protection Act of 1999 (The 1999 Act), the Commission issued interim SOS rules governing the SOS bidding process on July 30, 2004, through Order No. 13241. Pursuant to that Order, the Commission adopted a wholesale SOS model with Pepco, the District's electric distribution company, to serve as the SOS provider starting in 2005. Starting on February 8, 2005, the generation rates for SOS customers were determined through an annual competitive bidding process.

By Order No. 19897, issued April 12, 2019, the Commission, inter alia, established "a pilot program to procure renewable energy through long-term power purchase agreements ('PPA') for electricity generated by solar or wind power facilities located within the PJM Interconnection region ('PJM') with a target quantity of five (5) percent of the SOS load." In addition, Commission staff convened the SOS Working Group three times in 2019 to discuss drafting the RFP for the PPA. Order No. 20327, issued April 9, 2020, directed Pepco to file an RFP and draft PPA for five percent of the SOS load.

This process was previously conducted in October of 2020 and a contract was awarded in July of 2022; however, the contract was terminated by the Contractor in February of 2023. By Order No. 21918, issued October 26, 2023, the Commission directed Pepco to draft a modified RFP and draft PPA with more flexible terms in order to attract more bidders.

Pursuant to the RFP and stakeholder recommendation, the Commission is seeking an PPA IM to advise the evaluation panel and monitor the procurement process to ensure the integrity of the process conducted by PEPCO. The Commission is responsible for approving the PPA procurement and resulting contract(s) and verifying that the procurement and contracting process is just and reasonable.

B.2 Scope of Work

The Contractor shall complete the work delineated below.

B.2.1 Specific Tasks

The PPA IM shall perform the following Tasks:

- B.2.1.1 Perform market price benchmarking analyses for both energy and Renewable Energy Credits (RECs) which shall be included in its final report evaluating the procurement.
- B.2.1.2 Review and summarize proposals and prepare a written summary and table for Commission Staff including the following:
 - List of Offerors (Offeror information should include experience and financial capability)
 - Bid Prices
 - New or Existing project

- Geographical location
- Type of facility
- Size of Facility (MW/MWh)

B.2.1.3 Observe and advise the Pepco evaluation panel.

B.2.1.3.1 Verify the process is just and reasonable and is not biased toward a specific Offeror or Offeror groups.

B.2.1.3.2 Provide advice to the Pepco evaluation panel on the short list of Offerors, the negotiation strategy, the final evaluation, award, and final contract terms. This advice shall be provided after discussions with the Contract Administrator (“CA”).

B.2.1.3.3 Advise the CA on any immediate concerns that arise during the solicitation and evaluation process and provide timely written updates to CA.

B.3 Provide an interim report to the CA upon establishment of the short-list of Offerors, and the rationale used for that selection.

B.4 Review and advise Pepco on final contract terms with selected Offeror(s). Consult with the CA.

B.4.1 Identify contract concerns and recommend improvements to Pepco in consultation with the CA.

B.4.1.1 Provide a report to the CA summarizing final contract(s) with a table including the elements listed in B.2.1.2.

B.4.2 Provide a final report to the CA on the overall evaluation process including the justification and reasonableness of selecting the awardee and its’ offer; certify that the solicitation process was fair and open to all qualified Offerors; summarize the final resulting contract(s) and append the benchmarking analysis. Recommend improvements that should be considered if a PPA solicitation is conducted in the future.

B.4.3 Monitor the implementation of the contract(s). Provide a monthly written report summarizing contract(s) progress. The monthly reports will conclude after energy production for each PPA contract has begun.

B.5 Definitions and Resources
