

**PUBLIC SERVICE COMMISSION OF THE DISTRICT OF COLUMBIA  
1325 G STREET, N.W., SUITE 800  
WASHINGTON, D.C. 20005**

**ORDER**

**October 24, 2024**

**FORMAL CASE NO. 1181, IN THE MATTER OF THE INVESTIGATION INTO  
ELECTRIC SERVICES MARKET COMPETITION AND REGULATORY PRACTICES,  
Order No. 22318**

**I. INTRODUCTION**

1. By this Order, the Public Service Commission of the District of Columbia (“Commission”), pursuant to the Renewable Energy Portfolio Standard Amendment Act of 2024 (“Act”), decertifies, effective January 1, 2025, all solar energy systems not located within the District of Columbia (“District”), or in a location served by a distribution feeder serving the District, that were previously certified by the Commission to produce renewable energy credits meeting the solar requirement (“SREC”) of the Renewable Portfolio Standard (“RPS”) prior to February 1, 2011.

**II. BACKGROUND**

2. On July 26, 2024, the Council of the District of Columbia enacted the Fiscal Year 2025 Budget Support Act of 2024 (“Act”).<sup>1</sup> On September 18, 2024, the Act passed Congressional Review and became law. The Act included Title VI, Subtitle B, also known as the Renewable Energy Portfolio Standard Amendment Act of 2024 (“RPS Amendment Act”).<sup>2</sup> Notably, the RPS Amendment Act amended the language of D.C. Official Code § 34-1432 to mandate that:

“Any solar energy system not located within the District or in a location served by a distribution feeder serving the District and that was certified as eligible to produce renewable energy credits meeting the solar requirement of the renewable energy portfolio standard by the Commission prior to February 1, 2011, shall be decertified by the Commission effective January 1, 2025.”<sup>3</sup>

---

<sup>1</sup> *Fiscal Year 2025 Budget Support Act of 2024*, effective September 18, 2024 (D.C. Law 25-217, 71 D.C. Reg. 009990 (September 27, 2024)).

<sup>2</sup> D.C. Official Code § 34-1432, *as amended* by the Renewable Energy Portfolio Standard Amendment Act of 2024 (“Act”), D.C. Law 25-217 (September 18, 2024).

<sup>3</sup> D.C. Official Code §34-1432(e)(3) (2024).

**III. DISCUSSION**

3. Pursuant to the RPS Amendment Act, the Commission hereby decertifies, as of January 1, 2025, all solar energy systems that were certified to produce SRECs prior to February 1, 2011, not located within the District or served by a distribution feeder serving the District. A list of the applicable solar energy systems this Order decertifies is contained in the Appendix attached herein. The Commission clarifies that the RPS Amendment Act and this accompanying Order do not affect or decertify systems not located in the District, or in a location served by a distribution feeder serving the District, that were certified by the Commission for the generation of Tier One Renewable Energy Credits (“REC”) applicable to the non-solar portion of the RPS. However, any facility decertified by this Order specifically that wishes to continue to produce RECs for the non-solar portion of the District’s RPS must first be certified anew under 15 DCMR § 2902.<sup>4</sup>

**THEREFORE, IT IS ORDERED THAT:**

4. On January 1, 2025, all solar energy systems not located within the District or in a location served by a distribution feeder serving the District that were certified prior to February 1, 2011, by the Commission to produce Solar Renewable Energy Credits, are hereby **DECERTIFIED**.

**A TRUE COPY:****BY DIRECTION OF THE COMMISSION:****CHIEF CLERK:****BRINDA WESTBROOK-SEDGWICK  
COMMISSION SECRETARY**

---

<sup>4</sup> 15 DCMR § 2902.1(c) states: “Solar Energy Systems that are not located within the District and not in locations served by a distribution feeder serving the District, regardless of capacity, may be certified to meet the non-solar portion of the Tier One requirement of the RPS.” 15 DCMR § 2902.2 states: “In order to be certified, applicants shall complete the Commission’s ‘Application for Certification as an Eligible District of Columbia Renewable Energy Standards Generating Facility.’”
